

LYTCHETT MINSTER RECREATION GROUND, SEA VIEW ROAD, UPTON

23rd APRIL 2009

Search Area 1

This was a short path that ran off from Beach Road. Utilising tracking skills it was very apparent that no individuals had been down that particular path for a long time.

Search Area 2 and 3

Heath land and marsh. Reeds were over 7ft high with only a few crescent shaped paths into the reeds allowing access. Hazardous mud and water courses very nearby.

Search Area 4

Small wooded area. A simple search that took less than 10 minutes.

Search Area 5

Open fields. Good visibility and only the odd barbed wire fence and horse to contend with.
